Wednesday Classes—7:00PM beginning September 8th

In the Beginning: Science and Genesis 1-11—Rich Akin—Room W-11

Atheists now falsely proclaim to the public that science disproves the existence of God and missiologists indicate the "theory" of evolution has become one of the greatest barriers to the Gospel. As we walk through portions of the first 11 chapters of Genesis, this course demonstrates in an easy to understand manner that science rightly viewed is in fact in concert with the clear teachings of the creation and catastrophe events set forth there. Those completing the course will receive the related lecture notes and PowerPoint presentations for future reference. *Bring your Bibles and your questions!*

Fundamentals of the Faith—Steve Traum—Room W-9

A low or wrong view of the fundamental truths of God leads to trouble. However, there is great hope and promise through correct understanding and true Biblical faith in Jesus Christ! This class is for people at every level of Christian maturity. Participants will be challenged to further growth in understanding and living out the fundamental truths of your personal relationship with God. The classroom approach will be interactive participation, focusing on progressive sanctification through faithful study and application of Biblical fundamentals in your daily walk. If you desire, *according to His purpose* to be progressively conformed to the *image of His son* (Romans 8:28-29), you will personally benefit from this class! *Book available on the book table between services.

Doctrines of God - Robert Fraire—Room W-10 (*Class will begin Sept. 15th*)

In these days when many have a seriously deficient understanding of who is God and what He is like, are you ready to "...contend earnestly for the faith once for all handed down to the saints"? One of the primary missions of the Elders of Lakeside is to equip the church with an in depth understanding of the vital doctrines of the Christian faith. One avenue to accomplish this goal is through a series of deep yet relevant and accessible classes in systematic theology. This fall the first of these classes will be taught on the doctrines of God. Who is God? What is He like? What is the Trinity? Is God sovereign? These doctrines form the foundation of every Christian's ability to understand the Bible. This class will call upon you to study these truths, develop your understanding of them, and put down in writing what you believe so that you can build on these truths in future classes. We will be using Wayne Grudem's book on systematic theology in this class. This class is geared for everyone who desires to grow in their knowledge of the truth. *Book available on the book table between services.

Friday Men's Class—6:15AM beginning September 10th

The Practice of Godliness, by Jerry Bridges—Steve Kreloff—Overflow Room

What makes someone godly? Scripture tells us that God has given us "everything we need for life and godliness." But what makes a Christian godly? We will examine what it means to grow in Christian character and what helps us establish the foundation upon which that character is built. Bridges opens our eyes to see how character formation affects the way we relate to God, to ourselves, and to others. *Book available on the book table between services.

***Books required for a class are only available for sale on the Book Table between morning services.**
